Vario 18

VERSATILITY AND EFFICIENCY

Vario 18 Suction Pump

Vario 18

Versatile and efficient suction

Vario 18 is an efficient medical suction pump. An all-rounder for hospitals, clinics and homecare, it offers reliability, low noise and mobility. Its innovative QuatroFlex drive unit allows for easy servicing.

Vario 18 can be used with either a Disposable or a Reusable Collection System, according to each customer's needs and demands.

Manufactured with swiss precision and quality, **Vario 18** offers a range of useful features:

- a Overflow protection/bacteria filter
- b Vacuum gauge in kPa and mmHg
- c LED warning light
- d Carrying handle
- e Membrane vacuum regulator
- f Tubing holder
- g Plug for 12 VDC IN car connection cable

Unique swiss technology

The innovative 4-fold piston/cylinder system, QuatroFlex, builds up the vacuum within seconds. It also convinces through compact size and low noise during operation. As well as being unique in design and technology it is easy to service and maintain. A fact, highly appreciated by medical technicians. The membrane vacuum regulator allows for precise vacuum settings. It needs to be pressed down to change the vacuum, thus making it impossible to change the settings inadvertently. The Medela Vario 18 can therefore also be used at the patient's bedside.

Precise vacuum setting with press-down knob

Versatility for a wide range of applications

Vario 18 is lightweight and portable for use across departments in hospitals and clinics and at home. It can be used for small surgical interventions as well as for airway suctioning. Variable suction levels can conveniently be set with the vacuum regulator. The Vario 18 can be equipped with either a Disposable or a Reuseable Collection System.

Optimal hygiene for many applications

Hygienic and easy use

Vario 18 offers easy, intuitive handling. All accessories are designed to complement it perfectly and to prevent false connections. Optional accessories include a trolley, carrying bag and various attachments. It also features an inbuilt battery charger that allows for mobile use. The need to recharge is made audible and visible by special battery alarms.

Can be equipped for individual needs

Fast Facts

- Medela offers healthcare professionals 50 years of expertise in medical vacuum technology.
- Our swiss development and manufacturing process yields mechanical precision to guarantee excellent performance.
- QuatroFlex technology: silent function: can be used in environments in which quiet operation is necessary.
- Precise vacuum settings and fast vacuum build-up: ready when needed.
- One device for multiple needs.
- New users need little instruction to operate.
- Mains-independent for 30 minutes.
- Acoustic and optical battery management.
- Wide range of accessories available for individual application.
- Vario 18 incorporates reliability and ease of use like the Medela suction pumps for operating theatre.
- 2 years warranty on device.
